MANFIELD 萬輝塗料

MANFIELD

Being a leading company in technical
and managerial aspect for specific
industrial coating market segment

Innovative & Professional Coating Solutions Provider

We embrace the core value in which our customer concerned . We also positioned ourselves as service providing industry. By establishing high quality management system and comprehensive management structure, making use of wide range of coating technology, we provide innovative solutions to our customers in order to enhance their international competitiveness and business expansion leading to a win-win situation.

Manfield Coatings – Wide Range of Coating Products

Manfield Coatings Company Limited was founded in Hong Kong since 1986, which specializes in manufacturing industrial coatings.

Our specialties include stoving enamels, one-pack plastic coatings, two-pack polyurethane coatings, two-pack silicone acrylic coatings, soft touch coatings, UV curing coatings, waterborne coatings, tampo ink, silk-screen ink and powder coatings. These coatings are applicable to a wide range of products including toys, 3C (Computer, Communication, Consumer Electronics), household appliances, automotive interior decoration, lightings, equipments, etc.

“Our product quality meets world-class safety standards and environmental regulations”

Manfield established “Shenzhen Pinefield Chemical Enterprises Company Limited” in Shenzhen in 1991. To cope with rapid economic development in mainland China, we also established “Springfield Chemical (Guangzhou) Company Limited” in Guangzhou , its subsidiary factory Changzhou Manfield in Changzhou, Chongqing Office and Taiwan Branch. By utilizing the production lines and facilities of different production sites, we provide high quality customized coating and professional technical service to cater relative short production cycle of our customers in south and east China.

In addition, responding to the rapid growth of markets such as kitchenwares and mobile phones, we set up a joint venture company CMW Holding Limited (Former Weilburger Manfield Limited) with Weilburger GmbH Germany and Cashew Japan in 2000 enabling contribution of their attitude of precision, collaboration and efficiency to serve our customers.

Corporate Network

After 30 years growth and development, Manfield Coatings and its joint venture company CMW Coatings established various factories and offices in different regions to cater substantial business development and customer requirements.

Overseas Market:

Malaysia, Bangkok, Vietnam, Indonesia, Taiwan

Manfield Wujin Factory **Changzhou**

Manfield Jiulongpo Office **Chongqing**

Manfield Shulin Colour Matching Workshop **Taipei**

Manfield Head Office **Hong Kong**

Manfield Zengcheng Factory **Guangzhou**

Manfield Songgang Factory **Shenzhen**

Corporate O'Chart

Manfield Coatings Company Limited

Founded in Hong Kong in 1986

Shenzhen Pinefield Chemical Enterprises Company Limited

Established in 1991 at Shenzhen Songgang as an important production base to serve south China market.
Maximum production capacity is 15,000 tonnes per year.

Springfield Chemical (Guangzhou) Company Limited

Established in 2013 at Guangzhou as another important production base to serve south China market.
Maximum production capacity is 15,000 tonnes per year.

Springfield Chemical (Guangzhou) Company Limited Changzhou Branch

Established in 2014 at Changzhou as an important production base to serve east China market.
Maximum production capacity can reach 8,000 tonnes per year.

Springfield Chemical (Guangzhou) Company Limited Chongqing Office

Established in 2014 at Chongqing as a sale, service and colour matching centre for middle west region of China

Manfield Coatings Company Limited Taiwan Branch

Established in 2014 at Taipei as an important colour matching workshop to serve end customer colour development in Taiwan.

Corporate Vision

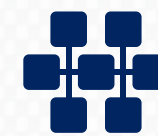

Being a leading company in technical and managerial aspect for specific industrial coating market segment

Make use of our wide range of coating technology to provide innovative coating application solutions to meet customer requirements

Core Competitive Advantages

The Softwares

Wide Product Scope

- ◆ Coating Types: liquid coatings, powder coatings, inks, pretreatment solution
- ◆ Applicable Industries: Toys, 3C, household appliances, interior automotive decoration, lighting, equipments, etc.

Innovative R&D Team

- ◆ Professional R&D team, providing customer with tailor-made high quality coating
- ◆ Involved in national coating standards drafting
- ◆ Colour creation ability: design new coating ideas to meet colour trends

Reliable Quality Management System

- ◆ Strict incoming materials, production and outgoing quality control system
- ◆ Comprehensive traceability system with quality records retained for every production batch

Prompt Customer Service

- ◆ Efficient regional customer service team
- ◆ Prompt on-site technical support
- ◆ All-in-one service during coating application

The Hardwares

Strong Production Capability

- ◆ Verstile Shenzhen, Guangzhou, Changzhou production base, Chongqing Office and Taipei colour matching workshop
- ◆ On time delivery: production lead time of 2-3 working days
- ◆ Raw Material: adequate stock to ensure on time delivery

Comprehensive Testing Equipments and Laboratory

- ◆ In-house testing laboratory (accredited by China National Accreditation Service for Conformity Assessment, CNAS L4539)
- ◆ Advance physical, chemical and analytical equipments

Comprehensive Testing Equipments

Complete and versatile chemical testing and analytical equipments
(Investment over USD 1.5 million)

Fully equipped physical testing laboratory
(Investment over USD 0.5 million)

Professional Equipments

Chemical Testing Equipments

- ◆ IR Spectrometer
- ◆ UV-VIS
- ◆ GC/MS
- ◆ ICP-OES
- ◆ LC-ICP-MS
- ◆ IC

Physical Testing Equipments

- ◆ RCA Abrasion Tester
- ◆ Colour Spectrophotometer
- ◆ High Temp. High Humidity Tester
- ◆ QUV/Q-Sun Weather Accelerating Tester
- ◆ Salt Spray Tester
- ◆ Taber Abrasion Tester
- ◆ Rubber Eraser Abrasion Tester
- ◆ Temperature Shock Tester
- ◆ Standard DFT Spraying System

“ Awards and Certificate ”

- ◆ TUV - ISO 9001 : 1994
- ◆ TUV - ISO 14001: 2004
- ◆ TUV - IEC QC 080000
- ◆ CNAS - Laboratory Accreditation Certificate
- ◆ Advance Enterprise in Energy Saving and Waste Reduction
- ◆ Asia Pacific Best Standard (APBEST) Award (US Malcolm Baldrige Model)
- ◆ Pearl River Delta Environmental Awards
- ◆ National Excellent Taxpaying, Importing and Exporting, Performance Enterprises with Foreign Investment
- ◆ Certificate of Good-Faith Enterprise
- ◆ HKMA - Quality Award Gold Award
- ◆ Hong Kong Awards for Industry : Productivity Award
